Called the business crime wave of the 21st century, trademark counterfeiting and product piracy are worldwide in scope and cost the U.S. economy billions of dollars every year. High technology and the globalization of business have made it possible to counterfeit and pirate a seemingly limitless number of products, from t-shirts, designer jeans, films and books to auto and airplane parts, and prescription drugs. Paradise explores the history of counterfeiting and piracy, shows how they are done, and the strategies that U.S. businesses are using to combat them. With interviews, commentary, and anecdotes by corporate attorneys, business leaders, and private investigators, this well-written book is essential for anyone interested in the damage that violations of intellectual property law are inflicting on world trade and what is being done to stop it.
